

Trails Strategy

Last Updated Friday, 07 November 2008

From Peter:

Hi Everyone,

Here is what we have been working towards for the last few years.

Please review the draft strategy, go to the meetings and offer your input. MoTCA has been working hard at this, and needs all of our support to have Cabinet acknowledge and accept the idea that recreational trails and all the users are important to our communities, citizen social welfare and economic being.

Please participate, and pass this information along to club members and other riders. Peter Sprague, MSc.
