

Lohrmann Trial 2010 Results

The Lohrmann trial went off without a hitch after a rushed install in the last week before the event was held. 31 riders competed in a virtual mist of humidity under overcast skies at the VMC club property on Happy Valley road. Dave Fracy and crew laid out the Expert / Sportsman loop and the D.I.M. + T (Doug Wallis, Ian Burton , Mike Graham and Tony Legg) crew laid out the Intermediate/ Junior loop. Competition was solid as all sections were on the tougher end of things with the occasional spectacular crash (How's the fender Will?) due to possibly tougher than standard and probably less than fully tested sections. Some of the Vintage crowd got inventive with a few of the sections not realizing the Intermediates had already done a pass through but it was with the best of intentions as they were making things passable for the Junior lines. Did I say the sections were laid out in a rush, as in, all 10 Jr/Int sections in about 6 hours on the Sunday preceding the trial. Thanks to all for the work and thanks to the burger crew (who was it?) who did a bang up job on their volunteer activity also at short notice.
